

## Nancy Lloyd

I urge the DRBC to prohibit hydraulic fracturing in the Delaware River Basin, and to ban water exportation for hydraulic fracturing and the importation of fracturing fluid(s) which will have a detrimental effect within the basin on the control and abatement of water pollution, economic development, the conservation and protection of drinking water supplies, the conservation and protection of aquatic life, the conservation and protection of water quality in Special Protection Waters, and the protection, maintenance, and improvement of water quantity and quality basinwide.
