

## James Loney

I have a country home in Sullivan County, NY. It is inexcusable that you are considering allowing corporate and governmental entities to allow ANY fracking whatsoever in the Delaware River Basin. It is also INEXCUSABLE that you even consider permitting the building of fracking supportive infrastructure. I DEMAND THAT THESE ACTIVITIES CEASE and admonish the powers that be that failure to desist will be met with civil disobedience. We will NOT allow you to pollute and despoil our precious natural environment more than you have already. Frackers are rapists!
