

## Dawn Heinzman

We, as lifeforms of planet earth, CANNOT SURVIVE WITHOUT WATER! Once fracking has begun, IRREVERSIBLE DAMAGE WILL OCCUR, and the surrounding water sources WILL BE CONTAMINATED AND UNDRINKABLE! If, in spite of this, you choose to blindly barrel ahead with, thusly, ONLY MONEY AS YOUR MOTIVATOR TO CONTINUE THIS FOOLHARDY PROJECT, the ripple effect of the contamination to the nearby and neighboring water sources will be catastrophic, unable to be undone, and lives could be lost from the fracking itself, and/or the earthquakes resulting from the fracking, and/or water contamination. It's on you, WHEN THIS INEVITABLY OCCURS!

Mni Wiconi! Water is life!
