

Katie Garton

I support a complete and permanent ban on fracking and its related activities in the Delaware River Basin, the source of drinking water for 15-17 million people, including the urban areas of NYC and Philadelphia.

I am 100% aainst water withdrawals as well as wastewater processing, storage and disposal related to fracking activities occurring outside of the Basin.

I feel strongly that we must achieve a complete and permanent ban to safeguard the Delaware River's unique and invaluable watershed which will support the health of humans and other life dependent upon it.

Sincerely,
Katie Garton
