

CAROL GRIFFIN

Dear Comments,

We support responsible energy development of natural gas and oil in all areas in the USA. This development is needed for total independence from outside sources. Independence allows us to make a more swift transition from fossil fuels to renewable energy alternatives, without costly government subsidies.

I respectfully ask the Commission to withdraw its new draft regulation and replace it with rules to support, not restrict, American energy development. Thank you for your consideration.

Sincerely,
CAROL GRIFFIN
