

Josephine Cepeda

To the Delaware River Basin Commission (DRBC): Please enact a permanent ban on drilling and fracking for oil and natural gas and all related activities in the Delaware River Watershed. During the seven years of the DRBC drilling moratorium, scientific studies have exposed environmental harms and documented damaging health effects, leading New York and Maryland to ban fracking. The overwhelming weight of evidence shows that shale gas simply cannot be extracted safely, no matter what regulations are applied. Our water supply and the Wild and Scenic Delaware River are irreplaceable. Please enact a permanent ban now. No fracking in the Delaware Water Basin or the State of New Jersey, ever!
