

Kathleen Shea

To whom it may concern,

Petroleum businesses will, of course, pitch all sorts of "advantageous" financial stats in order to sway public opinion and ultimately support their own corporate profitability. BUT THE HEALTH OF OUR WATER AND LAND IS PRICELESS AND SHOULD NOT BE FOR SALE. Don't sell our future. Safeguard our land and water for all who depend upon it - now and for all time. Please vote to ban ALL fracking.

Thank you,

Kathleen M. Shea
