

Ronald Thomas

I am a land owner that owns approximately 110 acres in Canaan Township (Map 04-0-0260-0019) and approximately 90 acres in Cherry Ridge Township (Map 05-0-0273-0020). I have previously worked for Newfield Drilling and I know that when done properly, drilling and fracking is positively safe for the environment. Gas taken from the ground due to fracking can offer important economic and energy security for Wayne County. Therefore, I recommend that the DRBC allow fracking in Wayne County.
