

Cindy Fischer

Please do not allow fracking waste to be dumped in, or fresh water to be used from the beautiful Delaware River. It is an historic treasure that serves as recreation and clean water provision to hundreds, if not thousands, of people annually.

Please ban fracking in, on, around the Delaware River Basin.

Please do not allow fracking to occur, ever, in this national treasure.

Please keep this area pristine for all to enjoy free of fear of contaminated water for years to come.

Thank you

Cindy Fischer (property owner in Narrowsburg, NY, concerned about the future of my homestead directly related to this issue. Value, damage, safety...)
