

## Jody Williams

Dear Friends at the DRBC, This decision should be as simple as apple pie. What we as leaders have in front of us does not belong to any of us. We all borrow it from our children. Have a little respect for those whom we pass this land to. Please do your job and protect what is remaining after the state of Pennsylvania refused to do their job. Pristine, abundant, bountiful, mysterious, thriving.....your basin under your jurisdiction. You can already see what this industry has done, the last thing we need is more basin abuse.

Signed.....

The Sturgeon downstream
