

Cosmo Lovecchio

Dear Commissioners:

I am writing to support the commission's proposal to protect our natural resources by PROHIBITING hydraulic fracturing in the Delaware River Basin, but I urge you to also PROHIBIT drillers from withdrawing millions of gallons from our waters and from sending fracking wastewater here for treatment.

As an angler, I'm concerned about the potential impacts from this activity in a place that is home to some of the best trout fishing in the region. For once, let's put the natural environment first over oil & gas drilling or other mineral extraction.

Thank you.
