Ban Fracking in the Delaware River Basin!!

Here in the United States we see many communities struggling against pollution, fossil fuel extraction, and more threats to their water sources. Unfortunately, the DRBC-proposed regulations banning fracking in the River Basin don't protect ALL communities – they continue to allow for the exportation of water from the Basin to fracking elsewhere AND the importation of wastewater into the Basin for treatment. This is unacceptable – we cannot allow other communities to be harmed.

We demand that ALL fracking banned from the Basin.

Thank you for your consideration.
