

James Featherston

Dear Comments,

I am writing today to voice my suport to the Delaware River Basin Commission\'s (DRBC\'s) proposed rules to severely restrict---and therefore effectively ban---hydraulic fracturing ("fracking") and horizontal drilling within the basin.

I\'m in favor of what you are trying to do which will take you out of the competition to produce your own energy needs for that means higher prices sooner for us in Louisiana. And hopefully we can raise your prices more than average.

We have never had an earthquake associated with fracting.

Thank you for your consideration.

Sincerely,
James Featherston
