

David Benner

As a land owner and farmer along the banks of the Dyberry creek in Wayne County, I am so glad the DRBC has upheld it's ban on fracking the Delaware River Basin. We do wood fired pizza and live music events at our bucolic setting and I fly fish w/ my boys in the Dyberry. I can only imagine if there were water trucks and drilling pads throughout our pristine valley how that would forever change the region, the water quality and my farm and business associated with it. I strongly encourage your organization to continue to uphold and further enforce the ban on fracking in the watershed. Thank you - Al Benner
