

## Lake township supervisor

Good Afternoon, I am Timothy Jaggars. I am a township supervisor of Lake Township one of the most populated townships in Wayne County. I am also a Director of the Wayne County Conservation District. I sit on the board of directors of the Wayne/Pike Farm Bureau as well. I oppose your ban on fracking and natural gas exploration within our County and Township. I grew up on our 200 acre family farm in South Canaan Township. Four generations later I now am the owner and steward of that land. I have learned to protect our natural resources for future generations. I have implemented many best management practices to protect the quality of the water exiting my farm. I feel I am being penalized for my efforts by the DRBC! I ask that you would reconsider your regulations. Since there seems to be no negative impact on the waters of the neighboring SRB! In fact the waters of the Chesapeake Bay continue to improve even with the Natural Gas Production. In closing please consider what you are about to do and how it effects our region of the state.

Thank you
