

## Theodore j Weiner

Dear sirs, I am a New York State,California, european community LICENSED veterinarian who is toatally against the proposed changes ,ammendmants to rules and practices of the drbc . I feel it is vitally important for all public comments be heard and that all the parties concerned have an instrument that is visible to express their thoughts . Public disclosure and participation should always be visible ,open and easy to express so that the Deleware River and surrounding environment,people and natural beauty remain viable and non commercialized or threatened. If you would like to further discuss please feel free to call me at 212-777-7299. Thanks , Theodore j. Weiner DVM
