

## Louise De Simone

Dear Sirs, I live work and pay taxes in the Delaware River Basin, I and others including the Damascus Cit. for Sustainability have fought for 14 years against Fracking that would and have tried to destroy our water and way of life. I always here as others have well water without it I have no home or property values. The stress the Frackers for the 14 years gave me cancer and then the twp. supervisors who every single one signed a lease, tried to run me out like was done in Dimock PA Bradford county. There should be no changes that exclude the public WHO PAY PROPERTY TAXES HERE NOT THE FRACKERS and any other changes that exclude those of us who live here regardless of how long. I am demanding you keep the proposed changes to the open public esp. those of us who LIVE HERE AND PAY TAXES HERE! After 14 years of fighting the absolute greed, lust, and gluttony of the so called "people" whose "rights" they claim to their property I am done begging. I have ancestry going back to the Original People who were always here, Native People. I am a Veteran who served in the Vietnam Era I am DONE ASKING IM DEMANDING you to Following the environmental people who are asking you to keep us informed and not as an after thought, DON'T SELL US OUT!!!
