The Public Requires Freedom to Information! DRBC is removing all references to the federal Freedom of Information Act from its rules and is setting up an alternative DRBC-centric system that leaves many aspects unaddressed or in the hands of the Executive Director, such as forms, reason for denial, and how costs will be assessed fairly, including if a waiver of fees can be requested like other agencies allow. The DRBC must provide a prescribed public access system that is clear, user-friendly, and affordable to assure public access to public records. The public needs something concrete to rely on. And it's proposed that the Executive Director determines whether or not to disclose requested information, deciding unilaterally if a disclosure is in the public interest! This invests unfair control over the information in an administrator who may not even be qualified to make such legally important decisions. The public needs to take part in DRBC decisions but without access to information, we can't do that effectively. Information is power and we have a right to it!
