

Kim Accurso

Regarding the Aethon discharge application, as a life-long citizen of Wyoming whose family, on this 4th of July weekend, is enjoying time on the lake, just as we and many other families have done year after year, throughout the summer, I am absolutely shocked and upset that the DEQ is even considering such an absolutely horrendous request! To even consider polluting the lake, the wildlife, the citizens, including children, and the communities who receive water from Boysen, seems a violation of basic rights! DO not allow such an action in support of the monetary gain of Aethon or ANY energy corporation! Shame on AETHon!!!
