

## Kelly Thacker

If this is allowed, I am ashamed of the state that I born in, raised in. Our water is some of the best in the nation, DON'T pollute it. We need to diversify our state, not ruin it. While it is true oil, gas, and coal have been the life of our state, it is time for a change. At what cost are we going to allow our water to be polluted. It will be at the cost of human health, wildlife habitats and tourism. Ask yourselves, if I lived near this would I feel that it is safe to take my children to Boysen or the rivers to play in. Would I want to eat fish caught out those rivers. I myself wouldn't. Don't let them ruin our state for their own greed!
