

Gloria McCloskey

To whom it may concern,

Why would any one even consider dumping a hazard waste product in any reservoir, does Flint Michigan come to your minds. It's the Aethon (Moneta Divide) problem not Wyoming's That permit will cost us (WY) dearly. When has Aethon or BP or ever been responsible for their trash, reclaiming WE (Wyoming) always gets stuck with the bill. Wake up do not give them (Aethon) or any others the permits. Keep Wyoming's water clean
Gloria
