

Crook County Natural Resource District

Hi Ron,

Please find attached a comment letter on behalf of the Crook County Natural Resource District. I like the format of the report, and found the probabilistic survey information in Appendix A very interesting. If you have any questions about data collected by the District as you finalize the report, please let me know.

Thanks,

Carmen Horne-McIntyre

Re: Draft 2020 Integrated 305(b)/303(d) Report

Hi Ron,

On behalf of the Crook County Natural Resource District (CCNRD), thank-you for the opportunity to comment on the Draft 2020 Integrated 305(b) and 303(d) Report for Wyoming. We have reviewed information provided for the Belle Fourche River Watershed and agree with the WDEQ's findings for the impaired segments located in Crook County. We do not have any comments for the Little Missouri River Watershed at this time.

Again, thank-you for the opportunity to provide comments. If you have any questions about water quality monitoring conducted by the District, please do not hesitate to contact me by email at chmcintyre.ccnrd@gmail.com or by phone at 828.674.8541.

Kind Regards,
Carmen Horne-McIntyre 
CCNRD Program Coordinator
