Wyoming Dept. of Environmental Quality
200 West 17th Street
Cheyenne, WY 82002

To Whom It May Concern:

The Wyoming Council of Trout Unlimited, which consists of 12 chapters and more than 1,650 members across the state, wishes to express thanks to the Wyoming Department of Environmental Quality for not allowing an increase in discharge from facilities managed by Aethon Energy.

Furthermore, the Council would like to thank the Department of Environmental Quality for using the request for changes to the permit to review operations at the facility used to return the discharge to the environment and determining it was no longer functional. Public comment is an important component of decisions that impact public lands, clean water and wildlife. Thank you for taking those comments into consideration when considering the request to increase the discharge by 400 percent.

With considerable appreciation,

Cole Sherard
Council Chair

Michael Jensen
Wyoming Council Coordinator
