

Rochelle Sheldon

I believe the DEQ did not act in good faith when denying this permit. They have obviously ignored the will of the many for the idiocy of the few. Aethon did their due diligence and received mostly positive support at the last public meeting. The only negative comments were made by ill-informed, ill-mannered bullies. The DEQ's denial of this permit will damage not only the economics of Fremont County but also set a dangerous precedent for future projects. If they can change the rules in the middle of the game we all lose.
