

Ron Vosika

Several questions arise re. Wyoming DEQ'S obstructionist stance on the Atheon (Moneta Divide) project.

*** Has Wyoming's DEQ morphed into a liberal federal agency, i.e., the BLM or EPA?

*** Has Wyoming's DEQ elevated critters above people?

*** Is the DEQ anti extraction and use of Wyoming's minerals, oil, and gas?

*** Does the DEQ believe resources that sustain life come from outer space?

*** Should Wyoming rely on the resource extraction of other States?

*** Is the DEQ biased?

*** Does the Wyoming DEQ get its mission objective from California?

*** Does the Wyoming DEQ use common sense?
