

# Linda Vosika

All life on earth is dependent on the abundance of earth's resources with only the sun's photons the exception. Over 6000 different necessities are made from oil and gas which we common people love and need to feed, clothe, shelter, and protect us.

Apparently DEQ and sister agencies employees see our future subsisting on other ethereal concoctions. The bible declares "people's battle is against bureaucracies, and agency's, against evil powers, against rulers of darkness..."

The DEQ need come out of the darkness, see the light and approve Atheon's Moneta Divide oil and gas project.
