

Chenille Kuegeler

Aethon oilfield is my family's livelihood. They have given my family so much! It provides so many jobs in the Riverton/Casper area, even to those not directly employed by them. To continue to fight against what helps build our community's growth is counterproductive to our community. Without Aethon and other oilfield companies we would be a ghost town of what once was like Jeffrey City. We as a community should be supporting Aethon and other companies in the oilfield for all they give to our community. That includes your jobs at retail stores, fast food, restaurants, etc, after all our income supports those businesses. Support Aethon! Thank you.
