As a citizen of Fremont County, Wyoming, I do NOT support the revised second draft, but do support the initial draft proposal WYPDES permit WY0002062, allowing Aethon to expand its operation, hiring additional personnel, helping improve our economy, and positively impacting my family.

I believe Aethon has gone above and beyond educating the citizens of our county and responding to WDEQ as to the scientific/technologic processes and procedures utilized and the manner in which they ensure the safety of their operations to the area in which they operate.

I encourage the Wyoming Department of Environmental Quality to approve the initial draft of the Aethon (Moneta Divide) Proposed Discharge Permit and manage the discharge within acceptable limits for the benefit of my family and all Wyoming citizens.
