

Jennifer McCarty

TO DEQ

This brief letter is in regards to the Monita Divide project. I believe all the studies and technological input has been done. The time involved for this project has taken a very long time to come to fruition.

I believe this project and the preparedness that will be in place by DEQ and the companies involved have the best interest in a clean environment. With that said, the area of lands involved will be beneficial to the growth and prosperity of the surrounding counties.

The modern day technology that is the codes of DEQ should be sufficient to adequately protect the area from any toxins that may occur.

I hope we can move forward very soon in development of these lands with ambitions to expand.

Thank you for your time and consideration of this letter.

Sincerely,

Jennifer McCarty
Fremont County Commissioner
