Please note the following comment regarding proposed regulations of Chapter 10 for Fifteen Acres or Less of Affected Land.

Thank you for the opportunity to provide comments.

Eldon D. Strid, P. E.

President

The statute has been modified at 35-11-401(e) (vi) (C) and by creating new subparagraphs (E) and (F).

The proposed regulations of Chapter 10 include qualifications for renewal at Section 6. Renewals, (b).

The statute does not include any qualifications for renewal and thus Section 6. Renewals at paragraph (b) beginning with "Qualifications for ...." to end should be deleted from the proposed regulations. It is imperative that regulations are consistent with the statute as passed by legislators. Addition of qualifications for renewal are outside of legislators' intentions.
