

Jean Evans

The Buffalo River had been a part of our lives for over 40 years. My children learned how to swim and fish on its banks. They learned how to canoe and kayak on its flow. Our community meant for weekly get togethers and volleyball games on its fields. It's painful for me to see how the hog farm run off has affected the river. Please deny the renewal application and help restore the Buffalo River to the on I remember and love.
