

Jill Pierce Wilborn

While I am not fond of CAFOs, I do respect the right of these farmers to farm. To my understanding they have done everything asked of them and beyond. The American Dream is to work hard, be honest and law abiding, and succeed. These boys have done this, it is not right to take it away from them not because they have done wrong, but just in case somewhere down the line they do wrong! This is setting a horrible example for our youth and others trying to live the American dream.
