

Timorhy Permenter

I attended the last meeting at the high school in Jasper.

A few things became crystal clear:

1. Many of the locals who attended the meeting in support of C&H Hog farm do not care about the Buffalo River. In fact they despise its tourism and outsiders. They despise the fact that the federal government has any say over what happens in the rivers watershed. They claimed that they dont swim in the river and dont let their kids and grandkids swim in it either.

2. This permit is precedent setting. Do you want 50 more CAFO's in the watershed?

You at the ADEQ are determining the future of the Buffalo River.

Please do your job.
