Description of Problem:

Please DO NOT allow C and H Farms to continue to operate on the Buffalo tributary. This beautiful river is being affected and I am concerned about E-Coli, algea, and other issues when I am floating on this river. I would think this farm could be put on a waterway or pond that is not used for recreational purposes. Our family has floated on this river for over 40 years and hope to continue for generations to come. Please do your part and reject the upcoming renewal. Thank you Gayle Teague
