Questions Comments:

I fully support the permit denile by ADEQ on the hog farming activities going on in the Buffalo water shed region. Hog farming should never be allowed in a water shed region to begin with. I retired from eastern Virginia and eastern North Carolina and I know first hand what hog farming can do to a very fragile ecosystem. My favorite place to bass fish in the Abrermarle ecosystems region was destroyed by hog farming. That why I now live in Arkansas. Please don't let it happen here. Daniel Barker
