

Wolf Post-Recovery Plan Scoping

Please give us your comments!

The Washington Department of Fish and Wildlife is inviting the public to comment on the scope of a post-recovery plan for wolves in Washington. Scoping helps us identify reasonable actions, alternatives, and impacts to be discussed in the plan. Scoping improves decisions and encourages collaboration, cooperation, and early resolution of potential conflicts. It is intended to narrow the focus of the plan to the relevant issues. **The public scoping comment period for this process is open from August 1, 2019 through November 1, 2019.**

Comments can also be provided electronically at wdfw.wa.gov/wolves-post-recovery-comments

Comments on the scope of the post-recovery wolf conservation and management plan:

Delist the wolves - they are killing machines with ~~NO~~ predators. Why is the WDFW protecting the killers (wolves-grizzly bears-coyotes) and not the deer-^(protecting) elk-moose & cattle.

The wolves need to be delisted before we have NO game left. Look at our neighboring states Idaho, Montana they are delisted, and the numbers still increase.

The wolves carry deadly parasites which threatened all other game and domestic animals & people.
