

# Randi Kyle

Stupidest thing this state has ever done. Besides electing Inslee and Ferguson.

Why not bring the caribou back instead, they can atleast help feed the starving. Wolves do not feed the humans.

Indians already kill way too many bulls destroying the genetics of the herds. Then have the wolves killing the calves from the breeding bulls just means the end is near.

The blue mountain elk herd went from 5600 head to less than 4000 head since the wolves were brought back. 3 years killed 1600 elk plus the cattle that we know about.

This state also gives no discounts to our senior citizens for hunting. Just shows you how greedy the state and their agencies are.

Wdfw will create a tag to kill a wolf for 1000s of dollars to help fuel their greed. Just watch.

This is and always has been the Democrats plan to destroy this state, our country and the eco system.

How about Inslee and Ferguson going to prison for taking my gun rights away. 1639 did nothing to make children safe. No armed guards or metal detectors at school. No gun safety training at school. Nothing to protect the children. Another Democrat way to destroy this state and country. Ask Inslee When he will build the gas chambers to kill the true Americans that follow and believe in the constitution?

70% of the moose in ne Washington gone because of the wolves

100% of the caribou gone because of the wolves

25% of the blue mountain elk herd gone because of the wolves and lack of feeding during harsh winters.

50% of the sw Washington elk herd gone due to hoof rot. Stupid is as stupid does.

Thank you wdfw and the Democrats for less fish and animals to eat. People are starving but who cares they didn't donate to the Democrats cause to destroy the eco system.
