You guys poached thousands of elk with hoof rot, ruined hunting in wa state, now because of pressure from college rejects that think "wolves" are a " majestic animal" you dipshits want to re introduce wolves??!!! We will have no elk left at the rate wdfw destroys our wildlife! Look at the salmon and steelhead we have nothing because you guys chose seals over fish because of the feelings of some pot smoking hippies, how about wildlife management goes to a private franchise that cares about wildlife instead of money like you worthless folks.
