

## Dave Taylor

To whom it may concern Short and to the point! I have hunted 50 years and I can not believe you do not know how to manage this problem. How do you manage bears? How do you manage elk? How do you manage deer? How do you manage anything? You have a special hunt cost \$200.00 a tag, and a point system. FIXED! Very easy. You have a managed hunt, on wolves. And anyone caught making a threat to a hunter they need to be prosecuted to the full; s And stop the nonsense on how to stop some of the wolves. The land owner should have all rights to shoot if need to be. Mr Taylor
