

David Hand

Leave the wolves alone, especially when they are on we the tax payers' land. Wolves control their own numbers and don't need to be hunted Diamond M Ranch he shown the whole country how corrupt western ranching is and deliberately getting their cows killed so they can get wolves killed, should be a felony and they should be kicked off of our land. WA like Idaho and WY prove states can't manage and Jay Inslee has no business being in the White House.
