I have very little trust or confidence in WDFW. As past owner of Scatter Creek Gamebirds, I was fed up with competing with illegal sales when advertising on craigslist. After contacting WDFW, I was the one being questioned? It was obvious to me that enforcement of game farm laws were not going to be enforced and closed my business.

Dairy farms are known for hoof disease, anyone can google it. A dairy farm in Littlerock was turned into a Elk Sanctuary. They can hardly walk. Pathetic at best..

I would try my game bird business again but do not trust WDFW to enforce the laws.

This does not concern wolves, I agree. It does concern those who are running the show.
