

## Michael Sipin

You have allowed to kill off the largest Sockeye Salmon run in the lower States because you say they were not native in our Cedar River in King County! Now you want to do the same to a animal, our wolfs who are Native to our land ! Cattle are not native to our wilderness! Stop kissing the butts of cattle men because they loose a few calf's, government allows them to write off that loss on taxes! We want wildlife in our wilderness that's what we go there for, it's a wilderness leave it as it should be! Not safe for all, then don't go, visit our zoo!
