

## Cynthia Subjeck

This Post-Delisting is a joke. Have you all lost your minds?? This is Wolf managment by Ranchers. It's really this simple: Stop killing wolves! I don't care how you say it or how you try to reason it away- there is no reason to kill a species that is still recovering! Ranchers need to not graze their livestock on public lands and stop with their self serving plans on "managing ". Use your heads!
