

K Coghlan

What is your gender?

Female

Age?

1

Residential setting:

Urban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Habitat connectivity

Information and education

Research

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

These decisions should be based on science, not driven by the financial concerns of the livestock industry. If that industry cannot support itself it should not be subsidized by public policy, especially given that the livestock industry is detrimental to both public health and the environment. Wolves, on the other hand, are a vital part of the ecosystem, are educational especially to a population that sees so little of the natural world.
