Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I feel that the wolf population needs to be managed and that wdfw need to look into the wolf population over here on the westside. There are wolves here and we are not being informed of them. Wolf area's on the westside include Matlock, winlock, toutle... These areas need to be addressed and wolves definitely need to be managed.
