

Richard Gatherers

What is your gender?

Female

Age?

64

County (or Counties) of Primary Residence?

King County

Residential setting:

Suburban

Do you identify yourself as any of the following?

Hunter

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-human interactions

Wolf hunting

Translocation

Land management

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Do not agree with just have WDFW killing them from helicopters. First: if another state would be willing to catch and transport to their state, let them. Second: the cattle farmer that is using state land to graze their cattle should show the WDFW where their cattle were killed and give them a special tag so they can go and track the wolves that are in that area and shoot them. Third: If there are too many wolves in one area, it should be opened up for a special hunt for hunters, and then monitor how many get taken by a game check station.
