Information and education

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I believe we need to coexist with wolves. As an avid mountaineer and hiker I am excited to have wolves reintroduced and thriving in WA state. It's imperative that cattle ranchers take appropriate steps to mitigate loss. I am not sympathetic to those who believe they are the ones with all the rights. The recovery plan must have some teeth for those ranchers who refuse to help alleviate conflicts and spread untruths such as "wolves kill for fun" which we broadly spouted at several locations where public comments were given in person this fall.
