

Siri Nelson

What is your gender?

Female

Age?

41

County (or Counties) of Primary Residence?

Thurston, King

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Wolf-human interactions

Land management

Habitat connectivity

Information and education

Reporting and evaluation

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves are considered to be keystone species, and therefore are crucial to long-term ecosystem viability. Declassification should not open them up to hunting, they still need time to recover. We should be using effective population size (N_e) not census numbers, to measure population resiliency.
