**What is your gender?**

Female

**Age?**

1

**County (or Counties) of Primary Residence?**

Thurston

**Residential setting:**

Urban

**Do you identify yourself as any of the following?**

Environmentalist

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf hunting

Translocation

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Please consider relocating wolves rather than killing them. Lethal methods usually means shooting them; shoot problem wolves with a tranquilizer & relocate them away from where they have caused a problem, JUST TRYING TO SURVIVE. We have come a long way with reintroduction & recovery of the grey wolf which has proved an asset to balance our ecosystem. Relocation could not cost that much more than killing. Especially considering all that had to take place to have wild wolves again. PLEASE DON'T KILL WOLVES, RELOCATE THEM.
