

Renee Adams

What is your gender?

Female

Age?

47

County (or Counties) of Primary Residence?

Kittitas

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf interactions with other species

Habitat connectivity

Information and education

Research

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

It has been proven that top predators are crucial for a healthy ecosystem. The wolf is a native species that has been wrongly targeted and almost eradicated from our wild lands. It is imperative that we put into place protections for this key animal, a symbol of the American spirit. As humans, we must use our intellect and science to work with nature, rather than against it.
